Projects

•[College Admission Form \(College Project\)](#)

Developed an interactive and responsive college admission form using HTML and CSS. Implemented structured design principles for seamless user experience and validation checks for data accuracy.

•[Food Website Development\(Project\)](#)

Designed and developed a visually appealing and fully responsive food website using **HTML and CSS**. Implemented structured navigation, engaging layouts, and optimized styling to enhance user experience. Utilized **CSS flexbox and grid** for modern layout designs, ensuring adaptability across devices. Focused on **clean code and accessibility**, making the site intuitive and visually engaging.
